SUMMARY

Experienced Front End Developer with a **product-led mindset**, specializing in designing and developing scalable, high-impact solutions that drive user engagement and business growth. Proficient in modern frameworks like **Next.js with TypeScript**, I bring a keen eye for design, delivering seamless **user experiences** that align with **product goals**. With strong **problem-solving** and **interpersonal skills**, I excel at collaborating with **teams** to build **user-centered products** that are both **innovative and market-ready**.

WORK EXPERIENCE

Jourhney

Co-Founder & Senior Frontend Developer
April 2024 - Present

Duties & Achievements

- Collaborated with the design and product teams to ensure alignment between design mockups and development deliverables, resulting in seamless project execution, improved workflow efficiency, and a final product that met both design and functionality requirements.
- Utilized Next.js and Tailwind CSS for rapid development, accelerating the design process, ensuring consistency across components, and delivering high-quality user interfaces efficiently.
- Leveraged TypeScript to enhance code quality, ensure type safety, and improve overall code maintainability, reducing runtime errors and simplifying future development efforts.
- Made use of React Hook Form for proper form handling, ensuring efficient state management, improved form validation, and an enhanced user experience.
- Integrated data and functionality into the website through APIs, enabling dynamic content updates, improved functionality, and enhanced user interactivity.
- Optimized the site for SEO and generated a sitemap submitted to Search Console, improving search visibility, enhancing crawl efficiency, and boosting overall rankings on search engine result pages.

Ribbon

Chief Technology Officer & Senior Frontend Developer
June 2023 - Present

Duties & Achievements

- Led the implementation of company designs into a responsive website using Next.js, enhancing the user experience across desktop, tablet and mobile platforms
- Implemented Sentry Monitoring tool for performance monitoring and error tracking, enabling real-time detection of errors, tracking performance bottlenecks, and ensuring a smoother user experience through proactive issue resolution.

- Made use of React Hook Form for proper form handling, ensuring efficient state management, improved form validation, and an enhanced user experience.
- Integrated data and functionality into applications using APIs, enabling seamless communication between the frontend and backend, enhancing the user experience with dynamic content, and improving overall application functionality.
- Improved API response times by implementing efficient data-fetching strategies which resulted in improvement in the website responsiveness and user engagement.
- Handled 400 and 500 errors while providing custom error pages, improving user experience by offering informative and user-friendly error pages, and ensuring better error handling and resolution for smoother site performance.

Foto Dino
Frontend Developer
May 2023 - Present

Duties & Achievements

- Managed and maintained React & Next.js applications for the company's frontend booking system and admin dashboard, ensuring smooth performance and reliability across both user-facing and internal platforms.
- Optimized the booking system for better speed, scalability, and user experience, enabling seamless scheduling and improving customer satisfaction.
- Integrated APIs to connect the booking system and admin dashboard with backend services, facilitating real-time updates for booking data and enhancing dynamic functionality for both users and administrators.
- Implemented Sentry Monitoring for performance monitoring and error tracking, enabling real-time detection of issues, reducing downtime, and ensuring a smoother experience for end-users and admins managing bookings.
- Troubleshot and resolved issues across the booking system and admin dashboard, ensuring uninterrupted functionality for both customers and staff.

Lenco
Junior Frontend Developer
November 2021 - June 2022

Duties & Achievements

- Collaborated with the development team to implement company designs into a responsive website using React, ensuring seamless integration of UI/UX elements, maintaining cross-device responsiveness, and delivering an optimal user experience tailored for businesses.
- Developed and maintained landing pages using Bootstrap, streamlining the development process to deliver visually appealing, user-friendly designs that functioned seamlessly across all devices, enhancing the company's online presence.
- Optimized stylesheets by transitioning from .css to .scss, leveraging SCSS features like nested rules to reduce code redundancy, improve maintainability, and speed up development workflows.
- Played a key role in the migration of the company's banking website to TypeScript, improving code quality, ensuring type safety, and reducing runtime errors while making the codebase more scalable and easier to manage for long-term development needs.

SKILLS

- HTML
- CSS
- TailwindCSS
- Javascript
- Typescript
- React.js
- React Query
- Redux
- Next.js
- Git
- Unit Testing
- Scrum and Agile Methodologies
- Web Performance and Optimization Techniques
- Web Accessibility Standards and best Practices

MISCELLANEOUS

Certification & Trainning

- McKinsey Forward Program, Mckinsey & Company   July 30, 2024
- React Basic, HTML and CSS in dept, Programming with Javascript, Version Control, Introduction to FrontEnd Development, Meta   September 2023 - December 2023
- The Complete JavaScript Course 2023: From Zero to Expert, Udemy   April 2023
- Front-End, HNG Internship   October 2022 - December 2022
- Bootcamp Certificate of Participation, Side Hustle Internship   November 7, 2022
- Frontend Web Development (React JS), Side Hustle Internship   September 28, 2022
- Jobberman Soft Skills Certificate, Jobberman   August 2022 - September 2022
- Software Engineering and Leadership Training Program, Decagon   May 2021 - October 2021
- Scrum Fundamentals Certified (SFC), SCRUMstudy   March 2021

Education

University of Benin, Bachelor of Science, Accounting   October 2009 - February, 2014
